

GME640

## SYMMETRE II Pro FPS Gaming Mouse

- USB 2.0 eSports professional optical gaming mouse
- 8 programmable buttons with custom programming software
- Up to 16,000dpi with shift-on-the-fly adjustment
- Adjustable weight system for precision tuning
- Instantly switch between multiple profiles

### Designed for Gamers Looking for A Perfect Mouse Experience

Kaliber Gaming by IOGEAR SYMMETRE II? Pro FPS Gaming Mouse offers PC and console gamers a truly customizable optical mouse experience. Designed for players of First-Person Shooter (FPS) games like Call of Duty® and Battlefield® as well as Third-Person Shooter (TPS) games like Outriders® and Fortnite®, the wired eSports-ready SYMMETRE II optical gaming mouse combines an ambidextrous design with button delete panels, an adjustable weighting system and eight programmable buttons for macros and keybinds to create the ultimate customizable mouse experience for the perfect feel for any gamer. With an adjustable 16,000 DPI optical chipset and RGB backlighting, dial in your mouse for the perfect feel and speed for any game.

### Ambidextrous Design

Featuring a completely ambidextrous design, the SYMMETRE II is a perfect partner to the left-handed gamer community. SYMMETRE II includes magnetic delete panels for the thumb buttons located on each side of the mouse, so users can easily remove unused buttons and avoid distraction. The software interface allows moving or reprogramming functions as needed to create dedicated right- or left-handed configurations with six, seven or eight buttons so that all gamers can play their way.

- USB 2.0 eSports professional optical gaming mouse
