20ft Cat6 Snagless Shielded (STP) Network Patch Cable - Gray

C2G 6.1m, CAT6, STP networking cable Grey U/FTP (STP):

Protect from EMI/RFI interference; connect network adapters, hubs, switches, routers, DSL/cable modems, patch panels and other networking applications in high noise environments.

Protect a high speed network from noise and electromagnetic interference when connecting with our Snagless Shielded Cat6 patch cable. For voice/data/video distribution, this cable will handle bandwidth-intensive applications and drastically reduces both impedance and structural return loss (SRL). Each patch cable is fully tested to meet ANSI/TIA 568 C.2 Cat6 component requirements. Each of the individual pairs is bonded together to help maintain the twist-spacing throughout the line right up to the termination point. Constructed from high quality cable and plugs, this design minimizes Near-End Crosstalk (NEXT) levels. Available in a variety of colors to easily color-code a network installation. Individual length label on each cable for ease of use.
