

Proposed Definitions of Materials Included under Phase 1 WEEE Program Plan

Proposed Material Groupings	Proposed Material Definition	Phase 1 Materials in O. Reg. 393/04	Includes	Excludes
Desktop Computers	A desktop computer or computer terminal that requires a standard AC power plug for its primary source of power.	Schedule 2 9. Computer terminals 13. Microcomputer 14. Minicomputer 18. Personal computer (desktop)	<ul style="list-style-type: none"> • Includes products commonly referred to as desktops, computers, computer terminals, desktops acting as servers, thin clients, microcomputers, and minicomputers. 	<ul style="list-style-type: none"> • Computer terminals that are embedded into non-Phase 1 products • Portable computers identified in Phase 2 (e.g. PDAs) • Products classified as Computer Peripherals under this Plan.
Portable Computers	A computer that contains a Central Processing Unit (CPU) and that can operate through self-contained battery;	Schedule 2 20. Personal computer (Laptop) 21. Personal Computer (Notebook) 22. Personal Computer (Notepad)	<ul style="list-style-type: none"> • Includes products commonly called laptops, notebooks, notepads and tablet PCs. 	<ul style="list-style-type: none"> • Portable computers identified in Phase 2 (e.g. PDAs) • Other handheld devices
Computer Peripherals	Disk drives, optical drives, computer mouse and keyboards.	Schedule 2 5. CD-ROM drive 6. Computer disk drive 7. Computer keyboard 8. Computer mouse	<ul style="list-style-type: none"> • This includes replacement parts and those supplied as stand-alone products. • CD-ROM, DVD, HD-DVD and BluRay drives • Disk drives • Computer mouse • Computer keyboard 	<ul style="list-style-type: none"> • Speakers, cameras, microphone and other non-Phase 1 products • Internal components contained within the original desktop or portable computer at the time of supply.
Monitors	A device that displays video image and does not have an embedded television tuner. The video images are displayed using a variety of technologies including CRT, LCD, and plasma.	Schedule 2 15. Monitor (CRT) 16. Monitor (LCD) 17. Monitor (Plasma)	<ul style="list-style-type: none"> • Computer monitors • Professional display monitors • Closed circuit monitor screens 	<ul style="list-style-type: none"> • Displays that are embedded into non-Phase 1 products where the monitor is not the primary product.

<p>Televisions</p>	<p>A device that displays video image and has an embedded television tuner. The video images are displayed using a variety of technologies including CRT, LCD, plasma, and rear-projection.</p>	<p>Schedule 4 15. Television (CRT) 16. Television (LCD) 17. Television (Plasma) 18. Television (Rear Projection)</p>	<ul style="list-style-type: none"> • Televisions • Dual television and computer monitors 	<ul style="list-style-type: none"> • Monitors • Televisions that are embedded into non-Phase 1 products where the television is not the primary product. (e.g. televisions embedded in refrigerators)
<p>Printing Devices</p>	<p>Printing devices designed to reside on a work surface, and includes various printing technologies including Laser and LED, ink jet, dot matrix, thermal, dye sublimation, etc. and "multi-function" or "all-in-one" devices that perform different tasks such as copy, scan, fax, print.</p>	<p>Schedule 2 25. Printer</p> <p>Schedule 3 6. Fax machine</p>	<ul style="list-style-type: none"> • Desktop printers • Portable PC-free photo-printer • Camera dock printers • Desktop label, barcode, card printers • Desktop fax machines • Multi-function or "all-in-one" devices that perform different tasks such as copy, scan, fax, print. 	<ul style="list-style-type: none"> • Printing devices listed in Phase 2 including: <ul style="list-style-type: none"> - Floor-standing printers - Point of Sale (POS) receipt printers - Handheld printers such as calculators with printing capabilities or label makers. • Printing devices that are embedded into non-Phase 1 products where the printer is not the primary product.
