# Highlights

## Control up to 10 lights with the Bluetooth app

Philips Hue with Bluetooth is the easiest way to get started with smart lighting. Set the mood instantly with Bluetooth-enabled light fixtures and the Hue Bluetooth app, which allows you to control up to 10 lights in a room.

## Control lights with your voice\*

Philips Hue works with Amazon Alexa and the Google Assistant when paired with a compatible Google Nest or Amazon Echo device. Simple voice commands allow you to control multiple lights in a room or just a single lamp.

## Set the right mood with soft white light

Hue bulbs and light fixtures use a soft white light. Dimmable from bright daylight to low nightlights, these smart lights allow you to fill your home with just the right level of warm light when you need it.

## Unlock full suite of smart light features with Hue Bridge

Add a Hue Bridge (sold separately) to your Bluetooth-controlled setup to make your smart lighting system even smarter. With the Hue Bridge, you can add up to 50 lights — including your existing Bluetooth-enabled lights — and smart accessories throughout your entire home, as well as unlock upgraded features such as away-from-home control.
