

GGMM2E

SURFAS II PRO Extended Mouse Mat

- Extended width fits both mouse and keyboard for a continuous surface with a clean look
- Textured polycarbonate surface for increased accuracy and control
- Ultra-long life surface outlasts cloth mouse pads
- Non-slip silicone base keeps pad in place
- Rolls up for easy travel and tournament use

Tournament-Level Gaming Mouse Mat

Kaliber Gaming by IOGEAR's SURFAST™ II Pro Gaming Extended Mouse Mat is designed for tournament-level performance with both laser and optical sensor mice. Until recently, even the best gaming mouse pads could be easily described as glorified tablecloths on which you move your mouse. However, with the recent advancements in material technologies there are many features that set the SURFAS II PRO apart from those now obsolete mouse mats of the past.

SURFAS Pro II Extended Mouse Mat

Kaliber Gaming's SURFAS II Pro is made with textured polycarbonate that gives you superior control and increased accuracy for all sensor types. The extended length rolls out underneath both your mouse and keyboard, providing a seamless gaming surface that not only performs well but looks great too.

Polycarbonate Surface ? Precision and Strength

SURFAS II Pro's textured polycarbonate surface features a finely grained finish designed to enhance mouse accuracy by increasing movement precision. It is an incredibly strong and durable material that is both waterproof and abrasion resistant, easily outlasting cloth mouse pads. The ultra-long-life surface also shows minimal visible wear, so it looks good for a long time.

Requirements

- Mouse

Package Contents

- 1 x GGMM1
- 1 x Warranty Card

Specifications

Function	GGMM2E	Dimensions	GGMM2E
