Furniture Power Centers

Easily bring power and charging right where you need it

The world today runs on mobile devices. In fact, the average person carries more than 3 devices on them at once. Keeping these mobile devices charged is critical to both personal and professional success.

radiant Furniture Power Centers allow you to conveniently bring power and charging right to the spaces where people work and play, all in a compact, aesthetically pleasing package. Office lobbies, waiting rooms, cafeterias, restaurants/bars, lecture halls, transportation hubs, guest rooms, etc. can benefit from the installation of radiant Furniture Power.

Features & Benefits

- **Meets Safety Standards.** All models have two tamper-resistant receptacles to keep little fingers away from danger.

- **Fast Device Charging.** All models provide two USB charging ports (5V, 3.1A total) ensuring that all of your devices charge as quickly as possible.

- **Versatile.** Compact, low profile design allows you to mount the unit in more places than ever before.

- **UL Spill Water Compliant.** Passed UL 962A spill water test requirements so it can even be used in a horizontal surface such as a table top.

- **Beautiful.** Available in five attractive radiant finishes, Black, White, Brown, Light Almond and Nickel, so you can match or complement any furniture style. Included bezel hides the mounting screws for a cleaner look.

- **Easy to Install.** Mounts using screw clamps instead of wood screws, allowing you to mount the unit in more types of surfaces, even glass and stone. Installation is a snap: Cut the opening, insert the unit, tighten the clamps, snap on the bezel and plug it in.

- **Lighting control option.** Switching Power Unit models have a push button switch that controls a rear outlet for connection and control of a sconce, table lamp or floor lamp. Switch is ADA compliant (Section 309.4 f, 2010 ADA Standards for Accessible Design).

- **Pass-thru plug.** The pass-thru plug on the radiant Furniture Power Center allows you to connect the power center to any outlet, even one that is already being used.

- **FCC Compliance.** This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

- **ETL Listed.** Listed to both US and Canadian safety standards.

Compliance

cETLus Meets UL962A the standard for Furniture Power Distribution Units and CSA C22.2 No. 42.1, the standard for Cord Sets and Power Supply Cords. All models passed the Spill Test for UL962A and are suitable for installation on horizontal surfaces.

Complementary Devices & Accessories

radiant® Collection
The radiant collection of switches, outlets and dimmers by Legrand puts that stylish finishing touch affordably within reach. Radiant gets rid of unsightly screws, delivering clean looks in a range of colors and metallic finishes.

deQuorum™ Flip-Up Table Boxes
deQuorum™ Flip-Up Table Boxes bring ready access to power and USB charging to work surfaces, desks, night stands and any other horizontal surface. Horizontal surfaces are prone to spills from liquids. Recognizing that accidents often happen, deQuorum Flip-Up Table Boxes have been designed and rated specifically to perform in these areas.
