Monitor arm R-Go Zepher Dual, for two monitors, fully adjustable, 0- 8 kg load capacity, 100% circular, black

R-Go Tools Monitor arm R-Go Zepher Dual, for two monitors, fully adjustable, 0- 8 kg load capacity, 100% circular, black:

With the R-Go dual monitor arm, you can quickly and easily raise your screens to eye level. You can also tilt and rotate the screens as you like. Thanks to its modular design, you can easily expand the monitor arms with a document holder, laptop holder, Smartbar, or an extra arm. The monitor arms can be mounted from above the desktop, so you can even work in an upright posture during installation! No tools are needed for installation, either. The R-Go monitor arms are designed to be CO2 neutral. We offset the CO2 emissions released in manufacturing a monitor arm by planting trees. The R-Go monitor arms are designed in the Netherlands and feature patented SMART functions, such as a rotation stop for every moving part. This SMART STOP prevents the monitor arms from bumping into an (acoustic) wall.
