

Keep Your Business, Your Business

FP10 Privacy Screen for Surface Go

Trust Kensington to help protect the sensitive information on your Surface Go and reduce the chances of wandering eyes viewing confidential data on your screen. This privacy screen is designed specifically for the Microsoft Surface Go and is compatible with the touch screen.

Features & Benefits:

- **Limited Viewing Angle** - Narrows the field of vision on the screen to +/- 30 degrees (in landscape mode), helping you keep the information on your screen private and reducing the chances of a visual data breach, which is important both in the office or in a public setting.
- **Blue Light Reduction** - Filters out the harmful rays by up to 30%, easing eye strain and reducing the chances of blue light interrupting your natural sleep patterns.
- **Anti-Reflective Coating** - Reduces glare from any outside light sources that can interfere with your viewing clarity.
- **Reversible Viewing** - Either side of the privacy screen can be used to different effect. One side has a matte finish to maximize glare reduction, is smooth to the touch and reduces traces of fingerprints. The other side is glossy and provides a clearer view of the monitor screen.
- **Touch Screen Compatible** - Uniquely designed for the Microsoft Surface Go this privacy screen is compatible with the touch screen allowing users to have full access to all features while maintaining their privacy.

About Kensington

For more than 35 years, Kensington has been the brand IT professionals choose when they need the most innovative and reliable security solutions, desktop productivity accessories, and ergonomic products to deploy into their workforce. IT business professionals can rest assured every product has been designed with high-quality components that exceed industry testing standards, so it's built to last and will work safely with your deployed devices.
