Fixed with M.2 screw or other fixture

Heatsink
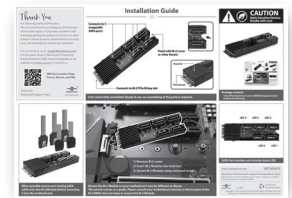

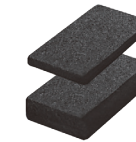

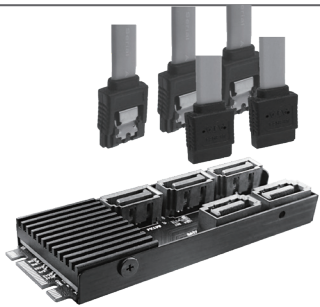

Thermal pad

Connects to M.2 PCIe M-key slot

Unit comes fully assembled. Ready to use, no assembling of the parts is required.

⚠ CAUTION
Static Sensitive Devices
### Handle with Care

Package content:
1) M.2 PCIe Gen3x2 to 5 ports SATA III Expansion Card
2) Quick Install Guide and two Pads.

When possible secure your locking SATA cable onto this M.2 Module before mounting it into the motherboard.

← Alignment guide

The pad has two different heights, please use the correct pad, thickness that matches the gap between the motherboard and the adapter.
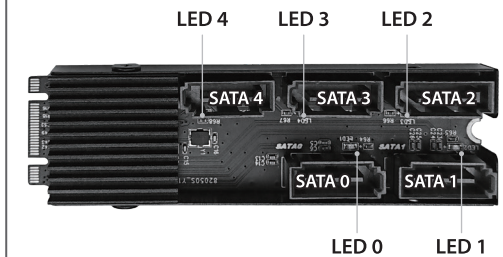

Adapter

Motherboard M.2 mount

Placement of the provided pad is important to better support the adapter during insertion of the SATA cable on to the adapter. Use the hole to align the placement of the pad.

---

1) Remove M.2 screw
2) Insert M.2 Module into Interface
3) Secure M.2 Module using removed screw

Mount this M.2 Module on your motherboard may be different as shown. This picture serves as a guide. Please consult your motherboard manual on the location of the M.2 NMVe slot and steps to mount this M.2 Module.
